The mathematics of Ljubiša D.R. Kočinac

1. Overview

Ljubiša Dragi Rosanda Kočinac¹ is a full professor of mathematics at the University of Niš, Serbia. He is one of the most prolific and influential mathematicians in Serbia.

Ljubiša D.R. Kočinac at work.

Kočinac defended his PhD thesis, titled *Some properties of cardinal functions*, in 1983, at the University of Belgrade, under the supervision of Djuro Kurepa. Kočinac has published over 140 papers and several books in the fields of set theoretic and general topology, and real analysis. According to Google Scholar, excluding self-citations, more than 500 articles cite these papers.² A representative list of publications by Professor Kočinac is included in Section 3 below.

In the late 1990s, Professor Kočinac started working enthusiastically in the field of *Selection Principles*, the then new subdiscipline of general and set theoretic topology initiated by Marion Scheepers. Kočinac has had a large impact on the development of this field, in the following ways.

¹ Kočinac's middle names, Dragi and Rosanda, are his father's and mother's name, respectively.

² To exclude self-citations from Google Scholar's results, I searched for kocinac -author:kocinac. To make the result more reliable, I also unchecked the *include citations* box in the pulldown menu at the upper right corner.

Research

Results, research questions, and collaborations. Kočinac has good instinct for identifying fruitful notions (e.g., k -covers, Menger-bounded groups, α_i -covering properties) and good problems. He often takes the first strides in a promising direction, and then leaves room for others to make their own contributions. He has collaborated with a large number of mathematicians from all over the world.

$$\begin{aligned}
 & (\forall n \in \mathbb{N}) X^n \text{ Hurewicz} \Leftrightarrow X \in S_m(\Omega, \Omega^{\#}) \\
 & \Leftrightarrow G_m(\Omega, \Omega^{\#}) \Leftrightarrow (\forall n) \Omega \rightarrow \Gamma \Omega^{\#} \Gamma_n^2 \\
 & \Leftrightarrow G(X) \in S_m(\Omega_0, \Omega_0^{\#}) \Leftrightarrow \Omega_0 \rightarrow \Gamma \Omega_0^{\#} \Gamma_n^2 \\
 \\
 & G(X) \in S_1(\Omega_0, \Omega_0) \Leftrightarrow X \in S_1(\mathcal{X}, \mathcal{X}) \\
 & (2^X, F^+) \in S_m(\Omega_0, \Omega_0^{\#}) \Leftrightarrow (\forall Y \subseteq X) Y \in S_m(\mathcal{X}, \mathcal{X}^{\#})
 \end{aligned}$$

Several theorems of Kočinac, in his handwriting.

Workshop organization

The first Workshop on *Coverings, Selections, and Games in Topology* was initiated by Kočinac and by Cosimo Guido. Since then, Kočinac was involved in the organizing and/or scientific committees of all subsequent workshops.

Travel

Kočinac travels constantly, participates in conferences and disseminates results of the field. Italy is a popular venue among these, but Kočinac also visited Brasil, China, Germany, India, Iran, Japan, Mexico, Russia, South Africa, Turkey, and USA. Kočinac delivered about 30 invited and plenary lectures in international conferences.

Editorship

Kočinac has edited the **Quaderni di Matematica** volume dedicated to Selection Principles, and special issues in **Topology and its Applications** dedicated to the field, as well as parts of **Filomat**, of which he is the founding editor. He was the chief editor of **Matematički Vesnik** from 2006 to 2012, and is an editorial board member in a number of journals.

Students

Kočinac has supervised several PhD theses dedicated to the field, including ones by Liljana Babinkostova, Vladimir Pavlović, and Darko Kocev.

Kočinac is generous in giving credit to other mathematicians for results and notions.³ For us, his colleagues, not less important is Kočinac's friendliness and warmth.

2. Wit and wisdom

Following are some of my favorite quotes of Kočinac.

³ Kočinac's citation generosity is clearly visible in his papers. From a personal perspective, I can tell that, as of writing the present note, Kočinac has cited my papers at least 19 times, more than any other author. See the automatically-generated comparison at the bottom of <http://u.cs.biu.ac.il/~tsaban/citing.html> for a comparison.

- *I will do this, not later than immediately.*
- *Not perfect, but best possible.*

An evaluation of the way an impossible task was performed.

- *Only if you insist. Please insist.*

An answer to “Would you like some wine?”

3. Selected publications of Ljubiša D.R. Kočinac

3.1. Journal articles and book chapters

Following is a selection of Kočinac’s publication, sorted by year of publication. Within each year of publication, the papers are sorted by author family name.

1976

- (1) Lj.D.R. Kočinac, Topological Ω - and n -groups, Master thesis, Beograd, 1976, iv + 82 pp. (in Serbian).

1983

- (2) Lj.D.R. Kočinac, Some properties of cardinal functions, Doctoral Dissertation, Beograd, 1983, v + 89 pp. (in Serbian).
- (3) Lj.D.R. Kočinac, Quelques propriétés des fonctions cardinales, Publications de l’Institut Mathématique (Beograd) 34 (48) (1983) 103–107.
- (4) Lj.D.R. Kočinac, An example of a new class of spaces, Matematički Vesnik 35 (1983) 145–150 (in Russian).

1985

- (5) Lj.D.R. Kočinac, On spaces with weak development, Matematički Vesnik 37 (1985) 182–188 (in Russian).

1986

- (6) Lj.D.R. Kočinac, Some generalizations of perfect normality, Facta Universitatis (Niš), Ser. Math. Inform. 1 (1986) 57–63.
- (7) Lj.D.R. Kočinac, Bi-quotient images of ordered spaces, Publications de l’Institut Mathématique (Beograd) 39 (53) (1986) 173–177.
- (8) Lj.D.R. Kočinac, Two theorems concerning bi-quotient maps, Matematički Vesnik 38 (1986) 58–64.
- (9) Lj.D.R. Kočinac, M. Žižović, E -dimension functions, Matematički Vesnik 38 (1986) 305–312 (in Russian).

1987

- (10) R. Dimitrijević, Lj.D.R. Kočinac, On connectedness of proximity spaces, Matematički Vesnik 39 (1987) 27–35.
- (11) R. Dimitrijević, Lj.D.R. Kočinac, On treelike neighbourhood spaces, Matematički Vesnik 39 (1987) 129–135.
- (12) R. Dimitrijević, Lj.D.R. Kočinac, On treelike proximity spaces, Matematički Vesnik 39 (1987) 257–261.
- (13) Lj.D.R. Kočinac, A theorem on strong radiality of mapping spaces, Facta Universitatis (Niš), Ser. Math. Inform. 2 (1987) 59–60.

1988

- (14) Lj.D.R. Kočinac, On radiality of function spaces, in: Proceedings of the Sixth Prague Topological Symposium 1986, Helderman-Verlag, Berlin, 1988, pp. 337–344.
- (15) Lj.D.R. Kočinac, A generalization of chain-net spaces, Publications de l’Institut Mathématique (Beograd) 44 (58) (1988) 109–114.

1989

- (16) Lj.D.R. Kočinac, Linearly singly bi- k -spaces, Publications de l’Institut Mathématique (Beograd) 45 (59) (1989) 169–177.
- (17) Lj.D.R. Kočinac, On \mathcal{P} -chain-net spaces, Publications de l’Institut Mathématique (Beograd) 46 (60) (1989) 188–192.
- (18) Lj.D.R. Kočinac, Some properties of cardinal functions II, Matematički Vesnik 41 (1989) 1–8.
- (19) Lj.D.R. Kočinac, Perfect \mathcal{P} -splittability of topological spaces, Zbornik radova Filozofskog fakulteta u Nišu, Serija Matematika 3 (1989) 19–24.

Acknowledgements

I thank Marion Scheepers for useful suggestions and comments. I also thank Ljubiša Kočinac for his patience with my numerous questions.

Boaz Tsaban
